FOR IMMEDIATE RELEASE

Delta Lloyd Group ensures compliance by using Outpost24's OUTSCAN®

KARLSKRONA, Sweden – January 27, 2009 – Outpost24, the Technology Leader in On-Demand Vulnerability Management solutions, today announced that it has successfully helped Delta Lloyd Group by providing an overview of the security on their network perimeter and showing that they have an adequate level of security.

Delta Lloyd Group was looking for a solution to scan their network perimeter and to produce reports that could provide a decent overview of the security status on their network and whether it is at an adequate level. Outpost24's OUTSCAN® solution was able to do just that.

Mike Grootveld, Security Specialist CISM/CISSP, stated *“The most important part is compliance of the network perimeter with our local policies. How is our network perimeter secured, does it comply with the policies? Our main objective is to know what we are facing and how we are secured, and the reports that OUTSCAN® generates provides us with this information.”*

One of the key benefits provided by OUTSCAN® is the flexible and powerful report generator, which provides different report formats for management, and technical staff.

“OUTSCAN® has really provided us with the ability to detect potential vulnerabilities in our network perimeter to validate that we have the level of security and compliance we need. Outpost24 delivers a valuable product and excellent service; I am very happy and pleased with the results.” Mike Grootveld, Security Specialist CISM/CISSP, added.

About Delta Lloyd Group: Delta Lloyd Group provides financial services, primarily in the Netherlands, Belgium, and Germany. The company offers insurance and pension services, asset management, retail banking, private banking, brokerage, mortgage, and property investment products and services.

About Outpost24: Outpost24 AB is the technology leader in on-demand vulnerability assessment and management solutions. We are independent of all suppliers of network security infrastructure. Our products are used by more than 1,000 corporate and government customers worldwide. Outpost24 is headquartered in Sweden with a global network of local offices. Additional information about Outpost24 is available at Outpost24.com.
