

Delta Lloyd Group ensures compliance by using Outpost24's OUTSCAN

As one of the largest insurers in the Netherlands with 6,500 staff and £36 billion in assets under management, Delta Lloyd Group has put a lot of efforts into ensuring regulatory compliance.

Delta Lloyd Group was looking for a solution to scan their network perimeter and to produce reports that could provide a decent overview of the security status on their network and whether it is at an adequate level.

Outpost24's OUTSCAN solution did just that. Mike Grootveld, Security Specialist CISM/CISSP, stated, *"The most important part is compliance of the network perimeter with our local policies. How is our network perimeter secured, does it comply with the policies? Our main objective is to know what we are facing and how are we secured, and the reports that OUTSCAN generates provides us with this information."*

The reports generated by OUTSCAN allow Delta Lloyd Group to see where they stand as far as security of the infrastructure, providing a detailed list of any potential vulnerabilities. This insight allows Delta Lloyd Group to proactively manage and reduce the risk exposure, thus securing their valuable assets and ensuring compliance with policies.

One of the key benefits provided by OUTSCAN is the flexible and powerful report generator, which provides different report formats for
